ULTRA-LIGHT ROLLATOR

FEATURES

A side-folding rollator efficiently designed to ensure stability and durability with all the required features in a rollator such as the seat, Push to lock or Pull to brake mechanism, lightly padded lumbar support, ergonomic handgrips, foldable basket and cane holder.

The CGR is the lightest on the market with a weight of 14 lbs. Its design offers a sleek frame and a cross-brace which is easy to fold with a safety lock when unfolded for better rigidity therefore increasing your safety during your walk.
